

I café restaurant Eindhoven

**This is where we meet¹ each other.
Here we eat and drink together.
Always with a good story².
In English, or Eindhoves?³
All is okay.**

**Together, we grow⁴.
What I can't, you can⁵.
We bake, roast and brew⁶.
À la carte or potluck.
We trust in what the season⁷
has to offer us.**

**Trying not to waste a thing.
Recycle and upcycle.
What we harvest is fair⁸.
To create and maintain value.
Two peas in a pod.**

**No need to rush⁹.
The time is now.
Let's start together¹⁰.**

1 We want to connect Eindhoven. In every language, for everyone's budget.

2 We want to be inclusive and base our program on knowledge sharing and spontaneous encounters.

3 Temporarily and permanently, our Brainport city is becoming increasingly international. As a good meeting place we, therefore, want to be flexible.

4 Together with our ambassadors who make Café Restaurant Eindhoven possible, become co-owners and have the opportunity to share dividends with a charity.

5 We stand for the craft and for the people who make it happen. We are pleased to share that with the city. We train people, we learn from each other, and we recognize ambition.

6 The bakery, roastery and brewery form an ecosystem in which residual products serve as raw material for the other. Where products reinforce each other and are combined. You, as a guest, are welcome to come and taste, and you will be informed about the processes.

7 We believe it's important that the season determines what ends up on our plate. Products as local as possible. Preferably from the region of Eindhoven.

8 From interior to cutlery, from plate to table linen. Fairly harvested, preserved or rescued.

9 We give our staff the freedom to grow or change roles when something else suits them better. There is a place for everyone. To pursue ambitions, develop themselves and follow their dreams.

10 We can't do this alone. And we don't want to either. Everything revolves around cooperation and joining forces. Do you want to be part of the team from the start?
